Digital Print Solutions Acquires Paper Handling Solutions

Richfield, OH – May 24th, 2022: Digital Print Solutions announced today the acquisition of Paper Handling Solutions (PHS), an innovative information technology and services company founded in 1992 servicing Georgia, North Carolina, and South Carolina. PHS' diverse product line of finishing and digital equipment provides complimentary services for DPS customers and allows DPS to further expand throughout the Southeastern US. The integration of both companies will take place over the next few months and our clients will continue to receive the same high quality support, which they have come to expect.

With this acquisition, all DPS and PHS team members will continue to grow with the newly expanded business. "We did extensive research throughout the Southeast and the PHS name came up time and time again when we asked commercial printers who was the premier service organization in the area for finishing/binding systems. Based on their tremendous reputation in the industry we are excited to welcome PHS into the DPS family," states DPS President and CEO Adam Silk.

More information about DPS and their expansion, including exciting career opportunities and the services they provide, can be found at <https://www.dpsamerica.com>.
